## WISH HOUSE NEWS #4

Greetings!

WISH HOUSE is the group, sponsored by Japanese, for caring children who have problems which were dropped out the school, labored and have no chance to study because of poverty. Here will be the shelter of the children who have problems and try to protect them temporarily from their problems.

### I . Summer Classes

We visited the several areas around Subic and held the summer classes, simple studies like calculation and writing alphabets for catching up with their public school classes. (Matain, Mangan-vaca, etc)

### II . Children's Green Thumb Project

On May 28 our long term project was held at Purok 4, Mangan-vaca. We cleaned up around public space, Plaza, collecting the garbage especially the plastic bags of the snacks, because it won't be returned to the soil! We wore the groves which Japanese elementary school students draw the pictures on it and donated for our project. It was only for 1hour under the hot weather, but the children were satisfied with their voluntary work.

### III. Japanese visitors

In this month, there were 3 visitors from Japan. They taught the children at summer classes and the sewing class to the young at Training Center. They are also nurses and treated a wound of the children.

1. Teaching calculation in the area
2. Sewing the bags with the sewing machine
3. Treated the wound of the children.

### IV. Petition to the Mayor

1. **Information:** If there are the children who cannot go to school because of poverty in Subic, we are pleased to know and care them on our institution. *We would like you to inform us the children. We will do our activities under your regulations.*

While I will be back to Japan in June and July, the staffs of WISH HOUSE will manage the classes continuously. It will be less than usual, but the children will be glad to come and join us. We appreciate with all your cooperation and understandings of our project!!
