## WISH HOUSE NEWS #9

Greetings!

WISH HOUSE is the group, sponsored by Japanese, for caring children who have problems, which were dropped out the school, labored and have no chance to study because of poverty. Here will be the shelter of the children who have problems and try to protect them temporarily from their problems.

### I . Regular classes

From June, as like a public school, we started the new school year and the regular classes. The classes are from Monday to Saturday. Regular subjects are Math, English, Tagalog and many kinds of the other classes like sewing, cooking, arts, music etc. Our students are who cannot go to school because of their economic situation of their family. They are eager to study so much. Everybody is interested in anything and try them without pause. This makes their ability spread out and their future will be much wider.

### II . The kids were back to school

On June, most of our students from last year were back to public schools of Subic. It shows all children wants to study at school. The 19 of 23 kids were back to school this year. Some of them were difficult to enter the school, because their parents couldn't prepare the documents which were required for application. However, they tried their best and also we talked with the teachers of their schools. Now, all of them still attend the school without problems.

### III. With Japanese visitors exchanged their cultures

Through almost all months, Japanese visitors came to our institute and exchanged their cultures. They played baseball, swam in the pool, calligraphy, stayed at kids' houses and had dinner with them, and so on. Their ages were from 6 years old and had a great experience in the Philippines. All the visitors had fun and they want to come back here again, they said.

### IV. Various types of our students

We have many types of kids. 1. We accessed the malnutrition child. We have been supported her from medical and nutrition side. Some days of a week, she stayed at WISH HOUSE and we gave her the medicines and feeding. 2. The disable children attend to our class. We tried them to get the ability which they need in their life. 3. The orphan joined our class. We supported their school supplies to go school continuously. We try to correspond to their each situation.

### V. Petition to the Mayor

1. **Information:** If there are the children who cannot go to school because of poverty in Subic, we are pleased to know and care them on our institution. *We would like you to inform us the children. We will do our activities under your regulations.*

We appreciate with all your cooperation and understandings of our project!!
